Subject:	Re: Digitizing books for Controlled Digital Lending, Fordham University Libraries

Michael - I'm happy to chat with you tomorrow, Wednesday, any time before 1pm CDT. Lots of libraries are asking us about course reserves and controlled digital lending. I noted part of your question is about Of note, we lend to anyone with an Internet Archive library card, and there is no way to restrict usage of books put into CDL by particular users.

>> in inches)

$2.40 per foldout page which cannot fit our Scribes and requires a separate workflow

$0.30 per folio item an entire bound item that does not fit on the Scribe

$0.30 cents per page for newspapers

Partner pays for shipping to and from partner library with prepaid return labels with each shipment.

I think we could have those done within 30 days from the time we receive them.
450 x $3. = $1350.
150,000 x .12 = 1800.
Total= $3150
I would add a couple hundred just in case some material has foldout maps or something unforeseen.

In order to get going we would have to have an agreement signed with Chris and a spreadsheet with the items you want digitized.

Please let me know if you have any other questions or comments.
Thanks,
Jeff
